

1989 Chevrolet Caprice Repair Manual

This book contains information necessary to the proper handling and care of your Ford car. Read it carefully—particularly the instructions on lubrication, the cooling system, care of battery, etc., which are absolutely necessary to economical and satisfactory operation. Your car is a splendid piece of machinery. If properly cared for, it will give you years of satisfactory service at little cost. When repairs are needed, we recommend having the work done by an authorized Ford dealer. They are provided with special service equipment. Furthermore they are interested, more than any one else, in your personal satisfaction with the car. Let experienced mechanics make repairs or adjustments. Your car is too valuable a piece of machinery to place in unskilled hands. Expert workmanship is just as essential in servicing your car as it is in building it.

Despite the tendency of scholarship to rely on accounts of religious women written by men, members of female religious houses or orders were active participants in the religious dialogues of the late Middle Ages and wrote extensively about themselves. This study draws on literary material on church reform produced by German-speaking communities of Italy, Switzerland, Germany and the Low Countries, from a female perspective. In particular, Anne Winston-Allen focuses on the Observant movement which originated in Italy in the 14th century and sought to 'revive piety and reform religious orders'. Through exploring what it was that women wrote about themselves, religious reform, piety and spirituality, she gains a better understanding of the reasons why women supported or opposed the reform and how they portrayed themselves in this process.
