r.h. Sin's final volume in the Whiskey, Words, and a Shovel series expands on the passion and vigor of his first two installments. His stanzas inspire strength through the raw, emotional energy and the vulnerability of his poems. Relationships, love, pain, and fortitude are powerfully rendered in his poetry, and his message of perseverance in the face of emotional turmoil cuts to the heart of modern-day life. At roughly 300 pages, this culminating volume will be his lengthiest yet.

Because I can never say anything plainly. Because I always stutter politely. Because there's always the chatter before the kiss. --from "In Need of Subtitles" In this award-winning debut, Sjohnna McCray movingly recounts a life born out of wartime to a Korean mother and an American father serving during the Vietnam War. Their troubled histories, and McCray's own, are told with lyric passion and the mythic undercurrents of discovering one's own identity, one's own desires. What emerges is a self- and family portrait of grief and celebration, one that insists on our lives as anything, please, but singular. Rapture is an extraordinary first collection, with poems of rare grace and feeling.

In search of answers and action, the award-winning poet and essayist Lisa Wells brings us Believers, introducing trailblazers and outliers from across the globe who have found radically new ways to live and reconnect to the Earth in the face of climate change We find ourselves at the end of the world. How, then, shall we live? Like most of us, Lisa Wells has spent years overwhelmed by increasingly urgent news of climate change on an apocalyptic scale. She did not need to be convinced of the stakes, but she could not find practical answers. She embarked on a pilgrimage, seeking wisdom and paths to action from outliers and visionaries, pragmatists and iconoclasts. Believers tracks through the lives of these people who are dedicated to repairing the earth and seemingly undaunted by the task ahead. Wells meets an

itinerant gardener and misanthrope leading a group of nomadic activists in rewilding the American desert. She finds a group of environmentalist Christians practicing “watershed discipleship” in New Mexico and another group in Philadelphia turning the tools of violence into tools of farming—guns into ploughshares. She watches the world’s greatest tracker teach others how to read a trail, and visits botanists who are restoring land overrun by invasive species and destructive humans. She talks with survivors of catastrophic wildfires in California as they try to rebuild in ways that acknowledge the fires will come again. Through empathic, critical portraits, Wells shows that these trailblazers are not so far beyond the rest of us. They have had the same realization, have accepted that we are living through a global catastrophe, but are trying to answer the next question: How do you make a life at the end of the world? Through this miraculous commingling of acceptance and activism, this focus on seeing clearly and moving forward, Wells is able to take the devastating news facing us all, every day, and inject a possibility of real hope. Believers demands transformation. It will change how you think about your own actions, about how you can still make an impact, and about how we might yet reckon with our inheritance.

In China, Qian's parents were professors; in America, her family is "illegal" and it will require all the determination and small joys they can muster to survive. In Chinatown, Qian's parents labor in sweatshops. Instead of laughing at her jokes, they fight constantly, taking out the stress of their new life on one another. Shunned by her classmates and teachers for her limited English, Qian takes refuge in the library and masters the language through books, coming to think of *The Berenstain Bears* as her first American friends. And where there is delight to be found, Qian relishes it: her first bite of gloriously greasy pizza, weekly "shopping days," when Qian finds small treasures in the trash lining Brooklyn's streets, and a magical Christmas visit to Rockefeller

Center—confirmation that the New York City she saw in movies does exist after all. But then Qian's headstrong Ma Ma collapses, revealing an illness that she has kept secret for months for fear of the cost and scrutiny of a doctor's visit. As Ba Ba retreats further inward, Qian has little to hold onto beyond his constant refrain: Whatever happens, say that you were born here, that you've always lived here. Inhabiting her childhood perspective with exquisite lyric clarity and unforgettable charm and strength, Qian Julie Wang has penned an essential American story about a family fracturing under the weight of invisibility, and a girl coming of age in the shadows, who never stops seeking the light.

What are you hiding behind your smile? If those empty bottles that line the walls of your room could speak, what tales would they spill? So much of your truth is buried beneath the lies you tell yourself. There's a need to scream to the moon; there's this urge to go out into the darkness of the night to purge. There are so many stories living inside your soul, you just want the opportunity to tell them. And when you can't find the will to express what lives within your heart, these words will give you peace. These words will set you free.

From the acclaimed Booker Prize-winning author comes a dazzling novel of family, love and love's disappointments Anna's aged mother is dying. Condemned by her children's pity to living, subjected to increasingly desperate medical interventions, she turns her focus to her hospital window, through which she escapes into visions of horror and delight. When Anna's finger vanishes and a few months later her knee disappears, Anna too feels the pull of the window. She begins to see that all around her, others are similarly vanishing, yet no one else notices. All Anna can do is keep her mother alive. But the window keeps opening wider, taking Anna and the reader ever deeper into an eerily beautiful story of grief and possibility, of loss and love and orange-bellied parrots. Hailed on publication in Australia as Richard Flanagan's greatest novel yet, *The Living Sea of Waking Dreams* is a rising ember storm illuminating what remains when the inferno beckons: one part elegy, one part dream, one part hope.

The Great Gatsby (1925) is a novel by F. Scott Fitzgerald. Published at the height of Fitzgerald's career as a leading writer of American fiction, The Great Gatsby was reviewed poorly by contemporary critics, but has since been recognized as a groundbreaking work for its vision of American decadence and decay. Adapted into several influential films and adored by generations of readers and writers, The Great Gatsby is not only Fitzgerald's crowning achievement, but one of the finest novels ever written. Nick Carraway is a young veteran and Yale graduate who moves to New York in search of work. He rents a bungalow on Long Island next door to the extravagant mansion of Jay Gatsby, a magnanimous millionaire with a mysterious past. There, he reconnects with his distant cousin Daisy and her husband Tom Buchanan, a flagrant philanderer who brings Nick to the city in order to spend time with Myrtle, his impoverished mistress. Soon, he receives an invitation to a party at the Gatsby mansion, where he gets terribly drunk and meets his neighbor, who swears they served together in the Great War. As time goes by, the two begin a tenuous friendship bolstered by stories of the war and a mutual fondness for alcohol. When Nick discovers that

Gatsby and Daisy have a complicated history with one another, he starts to question not only the nature of his neighbor's kindness, but his own desire to make it big in New York. The Great Gatsby is a tragic tale of ambition and romance set in the Roaring Twenties, a decade born from war and lost to economic disaster. With a beautifully designed cover and professionally typeset manuscript, this new edition of F. Scott Fitzgerald's *The Great Gatsby* is a classic work of American literature reimaged for modern readers.

A book—rare in our arid age—that takes root in the heart and grows there for a lifetime. Here the spirituality of the East and the West have met in a novel that enfigures deep human wisdom with a rich and colorful imagination. Written in a prose of almost biblical simplicity and beauty, it is the story of a soul's long quest in search of the ultimate answer to the enigma of man's role on this earth. As a youth, the young Indian Siddhartha meets the Buddha but cannot be content with a disciple's role: he must work out his own destiny and solve his own doubt—a tortuous road that carries him through the sensuality of a love affair with the beautiful courtesan Kamala, the temptation of success and riches, the heartache of struggle with his own son, to final renunciation and self-knowledge. The name "Siddhartha" is one often given to the Buddha himself—perhaps a clue to Hesse's aims in contrasting the traditional legendary

figure with his own conception, as a European (Hesse was Swiss), of a spiritual explorer. America's most provocative intellectual brings her blazing powers of analysis to the most famous poems of the Western tradition—and unearths some previously obscure verses worthy of a place in our canon. Combining close reading with a panoramic breadth of learning, Camille Paglia sharpens our understanding of poems we thought we knew, from Shakespeare to Dickinson to Plath, and makes a case for including in the canon works by Paul Blackburn, Wanda Coleman, Chuck Wachtel, Rochelle Kraut—and even Joni Mitchell. Daring, riveting, and beautifully written, *Break, Blow, Burn* is a modern classic that excites even seasoned poetry lovers—and continues to create generations of new ones.

solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis.

Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, *Vox* “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to

human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.
