Jan. 31, 1967- lists Nebraska tractor tests.

In the 1960s and 1970s, John Deere's tractors evolved dramatically from small machines into large, powerful tractors with modern advances and muscular engines; it was a period of the greatest changes since the 1920s. Deere christened these tractors the New Generation. This book in the Tractor Legacy series examines these Big Green machines in detail, with archival and current photography of restored tractors, a thorough historical text, and details of model specifications and variations.

In The John Deere Century, acclaimed author and photographer Randy Leffingwell uses his unique brand of storytelling to chronicle the company and the tractors that have carried the distinctive green and yellow livery for the past century. Iconic John Deere tractors ranging from the spartan Waterloo Boy to the Model AOS, and from German and Argentine models to the acclaimed New Generation tractors are featured in this celebration of industrial tractor design. Loaded with photographs, both modern and vintage, and excellently written info, this book will have John Deere fans salivating.
