"Introduction to Financial Statements Knowing the numbers is sometimes even a matter of corporate survival. Consider the story of Columbia Sportswear Company, headquartered in Portland, Oregon. Gert Boyle's family fled Nazi Germany when she was 13 years old and then purchased a small hat company in Oregon, Columbia Hat Company. In 1971, Gert's husband, who was then running the company, died suddenly. Gert took over the small, struggling company with help from her son Tim, who was then a senior at the University of Oregon. Somehow, they kept the company afloat. Today, Columbia has more than 4,000 employees and annual sales in excess of \$1 billion. Its brands include Columbia, Mountain Hardwear, Sorel, and Montrail. Employers such as Columbia Sportswear generally assume that managers in all areas of the company are "financially literate." To help prepare you for that, in this text you will learn how to read and prepare financial statements, and how to use key tools to evaluate financial results using basic data analytics."--

The seventh edition of Birt's Accounting textbook is designed for the core accounting unit in a business or commerce degree. Many students who plan to major in soft-side disciplines such as marketing or human resource management need a clear and accessible text that emphasises the relevance of accounting to business. The Accounting interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes practitioner videos from Ernst & Young, animated work problems and questions with immediate feedback. Birt's unique resource can also form the basis of a blended learning solution for lecturers.

The five volumes of this ultimate resource recognize the inherent unity between business ethics and business and society, that stems from their shared primary concern with value in commerce. This Encyclopedia spans the relationships among business, ethics, and society by including more than 800 entries that feature broad coverage of corporate social responsibility, the obligation of companies to various stakeholder groups, the contribution of business to society and culture, and the relationship between organizations and the quality of the environment.
